

## **With or Without You**

I see the phone... glued to your eyes... "In a minute", your text replies...

And still I wait for you.

On the bed I agitate... to watch this movie, it's getting late...

And I swear I'll watch without you.

With or without you...oh, oh... with or without you... oh,oh

I will view this damn movie with or without you. (x2)

Life is good... got no regrets... Just been a while since we had sex...

And still I wait for you.

It's always nice... when there is two... But there's other ways to do...

This Biz-ness without you.

With or without you... oh, oh... with or without you... oh, oh

I can reach the highest peaks with or without you. (x2)

And you're giving me this gray... You're giving me this gray...

And you give... And you give... And you're giving me this gray...

With or without you... oh,oh... with or without... oh,oh

I can switch... Just tell me which... With or without you. (x2)
